Competing GPUs Rubric

Project Description (50%)
Did you present sufficient details about your project for the grader to completely understand the work that was done and the goals of the project
No – 0
Mostly – 25
Yes – 50

Code Description (25%)
Did you describe high-level details of the major components of your code and specifics of important algorithms and kernels
No – 0
Mostly – 15
Yes – 25

Demonstration (25%)
Did your live or simulated demonstration of the GPU devices competing show how the game worked and their strategies. This is a qualitative evaluation, so strive to be more interesting or breath life into the work that you have done.
No – 0 – No demonstration was presented.
Good – 15 – The rules and execution of the game are demonstrated.
Great – 20 – The game was implemented well.
Amazing – 25 – Either the analysis or game itself was beyond what you would have expected.
